## **ENVIROTECH ASIA 2024**

---

**THE ENVIRONMENTAL REVOLUTION** has been in the making for almost four decades now and it has changed forever how companies do business. Environmental sustainability is the responsibility to conserve natural resources and protect global ecosystems to support health and wellbeing, now and in the future. A key element of environmental sustainability is its forward-looking nature without compromising the ability of future generations to meet their needs. We are beginning to see the consequences of global warming on ecosystems and communities. That's why now more than ever businesses need to invest in environmentally sustainable and socially responsible practices for which we are glad to announce "International Exhibition and Summit on Sustainable Environmental Practices alongwith 7th Envirotech Asia 2024" providing the networking platform that will bring together Indian and International industry leaders in the environmental technology sector.

## ABOUT THE ORGANIZERS

# RADEECAL COMMUNICATIONS

---

Radeecal Communications has established itself as one of India's most successful national and international exhibition organizers since 2011. The repertoire of their events includes exhibitions, trade shows, seminars and conferences on various industries. Radeecal Communications has been delivering series of Envirotech Asia since 2014 with International Participation from Asia, America, Europe and Africa providing a platform for new business developments and networking opportunities. This International Exhibition and Summit on Sustainable Environmental Practices alongwith 7th Envirotech Asia 2024 will be providing a comprehensive cross sectorial interactive platform for participants with new horizons to indentify the new developments by connecting global business models.

## ABOUT EXHIBITION AND SUMMIT

---

The global population's growing demands strain resources, causing climate change, water scarcity, and biodiversity loss. In response, the 7th EnviroTech Asia 2024 event aims to promote sustainable solutions. India, committed to a resilient path, emphasizes the 5 Ps: People, Planet, Prosperity, Peace, and Partnership.

**Prime Minister Shri Narendra Modi's announcement at COP 26 targets net-zero emissions by 2070,** urging every citizen's contribution. The Summit unites diverse participants industries, ministries, academia, and more fostering collaboration for sustainable practices. Green building, essential for sustainable development, is highlighted, aligning with India's clean growth objectives. The 7th Envirotech Asia 2024 stands as a pivotal platform, contributing to global and national environmental goals.

**Additional cost of Rs.2500/-Per HP + GST**  
**Current Applicable Rate of GST is 18%.**

# GLIMPSES OF PAST EVENTS

Envirotech Asia was first conceptualized in 2014, supported by the **Gujarat Pollution Control Board (GPCB)** as a pre-Vibrant Gujarat exhibition and summit in Gandhinagar, Gujarat. The second edition, held in 2015, was also organized in collaboration with GPCB in Gandhinagar. After a one-year pause, two consecutive editions of Envirotech Asia took place with the **Maharashtra Pollution Control Board (MPCB)** in 2017 and 2018 in Mumbai. In response to the challenges posed by the COVID-19 pandemic, a virtual edition was successfully organized in 2021. The most recent edition, the 6th Envirotech Asia in 2023, was organized in collaboration with the **Goa State Pollution Control Board (GSPCB)**.

It's worth noting that all editions were organized in partnership with **various Pollution Control Boards**, and each proved to be a great success. This collaborative approach with regulatory bodies underscores the effectiveness and impact of Envirotech Asia in fostering **environmental awareness and sustainable practices**.

**Shri Bhupender Yadav**  
Hon'ble Union Minister for Environment, Forests & Climate change

**Mr. Suresh Prabhu**  
Hon'ble Member, Rajya Sabha

**Mr. Pramod Sawant**  
Hon'ble Chief Minister, Government of Goa

**Shri Nilesh Cabral**  
Hon'ble Minister for PWD, Environment & Climate Change
