CIDCO Exhibition Center
Vashi, Navi Mumbai, Maharashtra

**India's Premier Platform for
Environmental Technologies & Infrastructure**

Driving Policy. Enabling Business. Accelerating Impact.

Overview

India stands at the forefront of a large-scale sustainability transition—driven by rapid urbanisation, regulatory evolution, ESG mandates, and a multi-trillion-dollar push toward environmental infrastructure.

From air quality management and water security to waste circularity and energy transition, the demand for scalable, implementable solutions has never been greater.

EnviroTech Asia 2027 is where this transformation converges.

About Envirotech Asia 2027

Now in its 8th edition, EnviroTech Asia has evolved into a strategic industry platform that connects:

-  Government & policy makers
-  Infrastructure developers & EPC players
-  Technology providers & OEMs
-  Investors & financial institutions
-  Startups & innovation ecosystems

ETA 2026 Glimpses

100+ Exhibitors

5000+ Visitors

Why Exhibit at EnviroTech Asia 2027?

Access to Buyers & Decision-Makers

Generate High-Quality Business Leads

Build Strategic Partnerships

Exploring new markets

Who Should Exhibit?

- Air Pollution Monitoring & Emission Control
- Water & Wastewater Treatment Technologies
- Solid Waste Management & Recycling Solutions
- ESG, Compliance & Advisory Services
- Equipment Manufacturing & Industrial Technologies
- Circular Economy & Waste-to-Wealth Technologies
- Renewable Energy & Energy Transition
- Environmental Infrastructure & EPC Solutions
- Environmental Monitoring & Analytics

Visitor Profile

Government officials & policymakers

Urban local bodies & development authorities

EPC contractors & infrastructure developers

Industrial buyers & corporates

Consultants & advisory firms

Investors & financial institutions

Startups & innovation leaders

Conference at Envirotech Asia 2027

EnviroTech Asia 2027 features a high-level industry conference designed to complement the exhibition by bringing together

Polymakers & regulatory authorities

Industry leaders & infrastructure
developers

Financial institutions & investors

Technology innovators & sustainability
experts

Conference Focus Areas

- Emerging Environmental Technologies
- ESG & Sustainability Frameworks
- Energy Transition & Decarbonization
- Circular Economy & Recycling
- Green Finance & Climate Investment
